Plus Fitness is excited to welcome our new Franchisees to the ever growing Plus Fitness global family. It has been quite a journey for our Master Franchisees who have worked tirelessly for months to get their first two Plus Fitness 24/7 clubs open.

As well as a world class fit out, the clubs are offering a great range of equipment and services including a fantastic class program, saunas and a health café all of which have helped draw a lot of early attention in the city of Ahmedabad. Our Master Franchisee team are also only a few weeks away from opening the 3rd Plus Fitness in India in South Bhopal, Ahmedabad. They are also experiencing a high volume of early interest from local entrepreneurs interested in exploring the Plus Fitness business model.

Once again congratulations and a big welcome to all of our fellow Indian Franchisees that have today opened their first two Plus Fitness 24/7's and with over 600 members between them!
